Compact Affordable Flexible

Designed for Lasting Quality and Convenience

- Ricoh FAX4430 Series
- Facsimile
- High-Performance Faxing For Workgroups

Specifications
- Type: Desktop Facsimile
- Resolution: 200 x 100 dpi (Standard)
- 300 dpi (Scanner only)
- 400 x 400 dpi (Super Fine)
- 600 x 600 dpi (Extra Super Fine)
- 800 x 800 dpi (Restoration)

Compatibility
- Internet Fax: T.37
- Internet Fax: T.38 Annex B
- Internet Fax: ITU-T Rec. T.38

Paper Specifications
- Paper Size: A4, Letter, Legal, Executive, A3
- Weight: 52 to 120 g/m²
- Type: Plain, Bond, Recycled, Color, Card Stock
- Source: Standard 500-Sheet Paper Tray
- Feeder: 100-sheet Bypass Tray
- Optional Feeder: 500-Sheet (Letter / Legal) x 2

Fax Communication Features
- Slow Speed Data Compression: 200 x 200 dpi
- Normal Speed Data Compression: 300 x 300 dpi
- Detail: 200 x 200 dpi
- Extra Super Fine: 600 x 600 dpi
- Extra Super Fine: 600 x 600 dpi
- Standard: 200 x 100 dpi

Fax Transmission Features
- Internet Fax: SMTP, TCP/IP
- IP Fax: T.38 Annex B, TCP, UDP/IP
- ScanRouter Lite Included

Options
- LCD Display Size
- Multi-Copy Capacity
- Document Memory
- Power Consumption
- Consumable Yields
- Weight
- Dimensions (WxDxH)

Other Features
- Internet Duplex Fax
- Watchdog Timer
- Scanner: FTP, TCP/IP
- IP Fax: T.38 Annex B, TCP, UDP/IP
- VoIP: ITU-T Rec. T.38
- Multi-Polling Reception
- Separation
- Duplex Fax Reception
- Memory Lock
- Memory Authorized Reception
- Confidential Reception
- Immediate/Memory Transmission
- Send Later
- Serial Broadcast Storage Report
- Page Count
- Page Retransmission
- Quick Blank Document Detection
- Forwarding
- Immediate/Memory (Transmit)
- Backup File Transmission
- Batch Transmission
- Auto Document, Auto Page Retransmission
- Auto Reduction

Consumables
- Toner Cartridge: 5,000
- Marker Refill Type 30
- ADF Maintenance Kit Type 300

System Specifications
- Internet Protocols: E-mail Trans.: SMTP, TCP/IP
- Internet Protocols: IP Fax: T.38 Annex B, TCP, UDP/IP
- Internet Protocols: ScanRouter Lite Included
- Operating Environment: 50 to 90°F, 20 to 80% RH

Optional Features
- Duplex, Collate, Slip Sheet, Page Select
- User Function Keys
- Group 3 (V.34); ECM
- Auto Dialer
- Internet FAX/IP FAX/VoIP/Scan-To-Email
- Internet Protocols: E-mail Trans.: SMTP, TCP/IP
- Internet Protocols: IP Fax: T.38 Annex B, TCP, UDP/IP
- Internet Protocols: ScanRouter Lite Included

Advanced document communication tools for superior workflow. Large workgroups perform hundreds—if not thousands—of individual document management tasks every day. To maintain high productivity in these demanding, fast-paced environments, you need easy-to-use systems that deliver exceptional efficiency and productivity. Like the RICOH® FAX4430L, which provides quick fax transmission speed and convenience copying for stand-alone and productivity. Like the RICOH® FAX4430L, which provides quick fax transmission speed and convenience copying for stand-alone and stand-alone applications. Or the network-ready Ricoh FAX4430NF, which comes standard with a full range of advanced fax features, plus copying and scanning.

Unmatched efficiency
With the Ricoh FAX4430 Series, end-users can access a single, powerful fax system that can handle a complete array of essential document communication tasks with speed, ease and convenience.

• Quick fax transmission for all fax documents—up to 50 pages per minute.
• Double your transmission capacity with an optional second line. The FAX4430NF operates independently, so you can use both lines for transmission or dedicate one line for transmission and a second for reception.
• Scan important fax documents, then walk away with the original instead of leaving the document in the tray.
• Maximize productivity and reduce interruptions in high-usage environments with a total paper capacity of 1,500 sheets with all optional paper feeders.
• Reduce paper consumption with duplex fax reception and duplex scanning stampers for color Scan-to-Black.

High-performance faxing
The Ricoh FAX4430NF comes equipped with advanced capabilities you can use to significantly reduce or even eliminate the typical costs of global document distribution.

Send fax at no cost with Internet faxing (T.37), which sends the same way as Scan-to-Email. In this case, the e-mail address is a virtually equipped Internet fax.
• Large companies with multiple networked locations can deliver documents via their own private digital network—up to 3,500. This cost method avoids directly to the address of the receiving fax. Transmission is instantaneous.
• Companies that have implemented Voice over IP (VoIP) technology can connect from their office phones directly to the IP address of the receiving fax. Transmission is instantaneous.
• Large companies with multiple networked locations can deliver documents via their own private digital network—up to 3,500. This cost method saves you up to 1.3 seconds per page for color—with the 22 Character Automatic Document Feeder.

• Send fax documents to your most frequent recipients with one-touch speed dialing. The high-speed Scan Key, programmed for one-touch operation, allows you to send faxes to any other G3 fax system without connecting the system to analog phone lines. The 2-line backlit LCD for checking system status and settings.

Convenient laser printing
Use the Ricoh FAX4430 Series to accomplish much more than fax when you add the optional 15-page-per-minute (ppm) PCL 5e/PCL 6 printer function.

• A wide range of printing tasks, including previewing black & white output, auto paper tray selection, slip sheet insertion and watermark printing. The high-speed Scan Key, programmed for one-touch operation, allows you to send faxes to any other G3 fax system without connecting the system to analog phone lines. The 2-line backlit LCD for checking system status and settings.

Color Scan-to-Fax offers a secure, paperless way to deliver virtually any scanned document—including color photos, brochures, maps and plans.

Superior productivity
Both the Ricoh FAX4430L and the Ricoh FAX4430NF are engineered to help you operate at peak levels and to make the most of your time. The systems’ outstanding overall durability to their specific sets of features, these systems have the time-saving tools you need to streamline workflow.

Conveniently send digital black & white copies with 15 ppm speed.

• Expect crisp, clean 600 x 600 dpi image quality for all digital copies, incoming fax documents and printed pages.

• Incorporate the Ricoh FAX4430NF in your communications architecture without compromising productivity, including:
• Power-saving Sleep Mode
• Duplex and Combine Copy Modes
• Minimal ozone emissions
• Restriction of Hazardous Substances (RoHS)

• Send faxes at no cost with Internet faxing (T.37), which sends the same way as Scan-to-Email. In this case, the e-mail address is a similarly equipped Internet fax.

• Companies that have implemented Voice over IP (VoIP) technology can connect from their office phones directly to the IP address of the receiving fax. Transmission is instantaneous.

• Send any hardcopy document as a PDF or JPEG—whether full-color or black & white—with the High-Resolution Scan Key.

• Incorporate the Ricoh FAX4430NF in their communications architecture without compromising productivity, including:
• Power-saving Sleep Mode
• Duplex and Combine Copy Modes
• Minimal ozone emissions
• Restriction of Hazardous Substances (RoHS)

• Count on fast, high-resolution color printing of multi-page documents—at 1.3 seconds per page for black & white or 0.9 seconds per page for color—with the 22 Character Automatic Document Feeder.

Easy network integration
When connected to the network, the Ricoh FAX4430NF is easy to install and simple to manage. So your IT department can add it to the network with confidence.

• Ensure error-free configuration with industry-standard Ethernet including a familiar QWERTY keyboard and 22-character x 2-line backlit LCD for checking system status and settings.

• Assign special key sequences to any of 16 programmable User Function Keys for one-touch operation. Each of these keys can be associated with incoming fax, outgoing fax, print jobs, and so on. It allows you to perform any one of up to eight different functions, even while printing in real time—at no charge—with IP faxing (T.38). This zero-cost method sends document distribution.

User-friendly design
No matter what a fax system can do, it will not help your workgroup improve efficiency if it is difficult to use. That is why the Ricoh FAX4430 Series incorporates a straightforward design for simple, intuitive operation.

• An easy-to-use user interface that you need on the easy-to-use control panel, including a familiar QWERTY keypad and 22-character x 2-line backlit LCD for checking system status and settings.

• Access a high-resolution 1.6 million-color LCD display, which can be customized to your specific needs.

• The High-Resolution Scan Key. The High-Resolution Scan Key, programmed for one-touch operation, allows you to send faxes to any other G3 fax system without connecting the system to analog phone lines. The 2-line backlit LCD for checking system status and settings.

• Contribute to the development of office solutions with environment-friendly and superior energy- and supply-saving features, without compromising productivity, including:
• Power-saving Sleep Mode
• Duplex and Combine Copy Modes
• Minimal ozone emissions
• Restriction of Hazardous Substances (RoHS)
Ricoh FAX4430 Series

Advanced document communication tools for superior workflow. Large workgroups perform hundreds—if not thousands—of individual document management tasks every day. To maintain high productivity in these demanding, fast-paced environments, you need easy-to-use systems that deliver exceptional efficiency and productivity. Like the RICOH FAX4430L, which comes standard with a full range of applications. Or the network-ready Ricoh FAX4430NF, which comes with quick fax transmission speed and convenience copying for stand-alone applications. Or the network-ready Ricoh FAX4430NF, which comes standard with a full range of advanced fax features, plus copying and scanning. Both systems also offer optional printing for additional versatility.

Unmatched efficiency

With the Ricoh FAX4430 Series, end-users can access a single, powerful fax system that can handle a complete array of essential document communication tasks with speed, ease and convenience.

• Achieve quick transmission for all fax documents—up to 33 pages per minute.
• Double your transmission capacity with an optional second Super G3 line. It operates independently, so you can use both lines for transmission or dedicate one line for transmission and one for reception.
• Scan important fax documents, then walk away with the original instead of leaving the document in the tray.
• Maximize productivity and minimize interruptions in high-usage environments with a total paper capacity of 1,350 sheets (with all options).
• Reduce paper consumption with duplex fax reception and duplex scanning stamps for color Scan-to-base.

High-performance faxing

The Ricoh FAX4430NF comes equipped with advanced capabilities you can use to significantly reduce or even eliminate the typical costs of global document distribution.

• Send faxes at no cost with Internet faxing (T.37), which works the same way as Scan-to-Email.
• Send faxes at no cost with Internet faxing (T.37), which works the same way as Scan-to-Email. In this case, the e-mail address is a similarly secure, paperless way to deliver virtually any scanned document—including color photos, brochures, maps and plans.

Superior productivity

Both the Ricoh FAX4430L and the Ricoh FAX4430NF are engineered to help you operate as productively as possible. From the systems' outstanding overall durability to their specific sets of features, these systems have the time-saving tools you need to streamline workflow.

• Convert any digital black & white cover sheet with 15 ppm speed.
• Expect crisp, clean 600 x 600 dpi image quality for all digital copies, including fax documents and printed pages.
• Send fax documents to your most frequent recipients with one-touch speed dialing.
• Include job attributes (e.g., print or fax) and send fax documents with automatic collation for all output files, copy files.
• Control your faxing environment to suit your needs—remote faxing allows you to send faxes to any other G3 fax system without connecting the system to analog phone lines.

Easy network integration

When connected to the network, the Ricoh FAX4430NF is easy to install and simple to manage. So your IT department can add it to the network with confidence.

• Ensure error-free configuration with industry-standard Ethernet connectivity, while the WebImageMonitor feature supports remote administration.
• Control access to all transmission capabilities—including Scan-to-Email, faxing, IP faxing and LAN faxing—with Server Domain Authentication.
• Enhance your productivity right from the desktop with LAN faxing. This capability allows you to send faxes to any other G3 fax system without leaving your PC. The LAN fax Cover Sheet Editor even creates customized cover sheets.

Your Environmental Partner

Ricoh continues its long-standing commitment to developing office solutions with environmentally friendly and superior energy- and supply-saving features, without compromising productivity, including:

• Power-saving Sleep Mode
• Duplex and Combine Copy Modes
• Minimal ozone-emissions
• Restriction of Hazardous Substances Compliance (RoHS)

Unmatched efficiency

With the Ricoh FAX4430 Series, end-users can access a single, powerful fax system that can handle a complete array of essential document communication tasks with speed, ease and convenience.

• Quick fax transmission for all documents—up to 30 pages-per-minute.
• Choose your transmission priority with optional speed dial. The FAX4430 Series comes equipped with a 500-document document feeder to guarantee each document is transmitted as quickly and accurately as possible.
• Keep your business moving with a standard first-page transmission time of 30 seconds.
• Maximize productivity and minimize interruptions in high-usage environments with a total paper capacity of 1,350 sheets (with all options).
• Reduce paper consumption with duplex fax reception and duplex scanning stamps for color Scan-to-email.
• Ensure quick transmission for all fax documents—up to 30 pages-per-minute.
• Double your transmission capacity with an optional second Super G3 line.
• Handle a wide variety of printing tasks, including color photos, brochures, maps and plans.

Convenient laser printing

Use the Ricoh FAX4430 Series to accomplish much more than faxing when you add the optional 15-page-per-minute (ppm) PCL 5e/PCL 6 printer function.

• Handle a wide variety of printing tasks, including powerful 8-line output, auto paper tray selection, skip sheet insertion and watermark printing.
• A unique special purpose print key as engravures and labels, with the optional 100-sheet bypass tray.

Color Scan-to-Email allows you to send virtually any scanned document—including color photos, brochures, maps and plans.

Accommodate lengthy, multi-page documents (up to 27” long) with the 100-page Document Feeder.

High-performance faxing

The Ricoh FAX4430 Series comes equipped with advanced capabilities you can use to significantly reduce or even eliminate the typical costs of global document distribution.

• Send faxes at no cost with Internet faxing (T.37), which works the same as Scan-to-Email. In this case, the e-mail address is a virtually universal fax number.
• Enhance your productivity right from the desktop with LAN faxing. This capability allows you to send faxes to any other G3 fax system without leaving your PC. The LAN Fax Cover Sheet Editor even creates customized cover sheets.
• Companies that have implemented Voice over IP (VoIP) technology can incorporate the Ricoh FAX4430NF in their communications architecture directly to the IP address of the receiving fax. Transmission is instantaneous.
• Send faxes at no cost with Internet faxing (T.37), which works the same as Scan-to-Email. In this case, the e-mail address is a virtually universal fax number.

Superior productivity

Both the Ricoh FAX4430L and the Ricoh FAX4430NF are engineered to help you operate as productively as possible. From the systems’ outstanding overall durability to their specific sets of features, these systems have the time-saving tools you need to streamline workflow.

• Convert any digital black & white copy with 15 ppm speed.
• Expect crisp, dry 600 x 600 dpi image quality for all digital copies, incoming fax documents and printed pages.
• Document Feeder.
• Color Scan-to-Email offers a secure, paperless way to deliver virtually any scanned document—including color photos, brochures, maps and plans.
• Count on fast, high-quality scans with multi-page documents—at 1.3 seconds/page for black & white or 6.8 seconds/page for color—with the 100-page Automatic Document Feeder.

User-friendly design

No matter what a fax system can do, it will not help your workgroup improve efficiency if it is difficult to use. That is why the Ricoh FAX4430 Series incorporates a straightforward design for simple, intuitive operation.

• Find exactly what you need on the easy-to-use control panel, including a familiar QWERTY keypad and 2-line backlit LCD for checking system status and settings.
• Rapid dial access gives you easy access to anything from User Profile Keys for one-touch operations on the FAX4430L. The FAX4430NF includes a 2-line backlit LCD for checking system status and settings.
• One-touch dialing, for immediate transmission of important documents. The FAX4430L has 90 Quick Dials and 200 Speed Dials. The FAX4430NF has 150 one-line speed dial numbers.
• Select the appropriate level of detail for fax transmission with the High-Resolution Scan Key.

Easy network integration

When connected to the network, the Ricoh FAX4430 Series is easy to install and simple to manage. So your IT department can add it to the network with confidence.

• Streamline network integration with Dynamic Host Configuration Protocol (DHCP) and Auto IP.
• Reduce administration time and costs with Robust Print Management. The FAX4430L includes a 100-sheet Document Feeder.
• Count on fast, high-quality scans with multi-page documents—at 1.3 seconds/page for black & white or 6.8 seconds/page for color—with the 100-page Automatic Document Feeder.

Your Environmental Partner
