

Legal IT Professional Services

Leverage proven legal IT expertise and services

Your law firm has different IT demands than other businesses, which is why we've created a wide range of comprehensive and customized IT and professional services specifically for law firms. Leverage Ricoh as an extension of your IT team to help deploy new technology and implement strategic initiatives.

Ricoh offers a wide range of Legal IT Professional Services to support your firm, including:

Project-based Engagements

We work with you on specific projects like hardware and software upgrades, document management system design and migrations, cloud migrations, infrastructure refreshes, and more.

Hardware & Software Implementations

Our partnerships provide our clients with access to leading applications like VMware, Citrix, Cisco and others, allowing us to build solutions for the most complicated configurations.

Strategic Planning

Make the most from your IT investment with strategic planning. We can help you assess your environment, design a roadmap for storage, network, PC, server, and customer-facing upgrades, always based on your established budget.

Document Management Support

We'll consult with key stakeholders to define and implement systems and workflows to manage content from creation to collaboration and preservation that meet your unique needs (for example, iManage, Wordox) to ensure secured file sharing, records management, and document security.

End-user Computing

Accommodate the way your end-users work by leveraging the applications and devices that enable the access and sharing of information quickly and securely, wherever they are working today.

Smart Meeting Rooms

Support firm-wide engagement and productivity when working remote. Ricoh delivers a variety of cloud applications and solutions for a consistent working experience by combining our consulting experience with the most innovative technologies, including Microsoft Office365 and Microsoft Teams platform and deployment services.
